

Shopping for food and other household essentials

Stay home if sick

Avoid shopping if you are sick or have symptoms of COVID-19, which include a fever, cough, or shortness of breath.

Order online or use curbside pickup

Order food and other items online for home delivery or curbside pickup (if possible). Only visit the grocery store, or other stores selling household essentials, in person when you absolutely need to.

Protect yourself

- Stay at least 6 feet away from others while shopping and in lines.
- Cover your mouth and nose with a cloth face covering when you have to go out in public.
- When you do have to visit in person, go during hours when fewer people will be there (for example, early morning or late night).
- If you are at higher risk for severe illness, find out if the store has special hours for

people at higher risk. If they do, try to shop during those hours. People at higher risk for severe illness include adults 65 or older and people of any age who have serious underlying medical conditions.

- Disinfect the shopping cart, use disinfecting wipes if available.
- Do not touch your eyes, nose, or mouth.
- If possible, use touchless payment (pay without touching money, a card, or a keypad). If you must handle money, a card, or use a keypad, use hand sanitizer right after paying.

Use hand sanitizer

After leaving the store, use hand sanitizer.

At home

When you get home, wash your hands with soap and water for at least 20 seconds.

Accepting deliveries and takeout orders

Limit in person contact if possible

- Pay online or on the phone when you order (if possible).
- Accept deliveries without in-person contact whenever possible. Ask for deliveries to be left in a safe spot outside your house (such as your front porch or lobby), with no person-to-person interaction. Otherwise, stay at least 6 feet away from the delivery person.

Wash your hands or use hand sanitizer after accepting deliveries or collecting mail

- After receiving your delivery or bringing home your takeout food, wash your hands with soap and water for 20 seconds. If soap and water are not available, use a hand sanitizer with at least 60% alcohol.
- After collecting mail from a post office or home mailbox, wash your hands with soap and water for at least 20 seconds or use a hand sanitizer with at least 60% alcohol.

Banking

Bank online whenever possible

If you must visit the bank, use the drive-through ATM if one is available. Clean the ATM keyboard with a disinfecting wipe before you use it. When you are done, use a hand sanitizer with at least 60% alcohol. Wash your hands with soap and water for at least 20 seconds when you get home.

Getting Gasoline

Use disinfecting wipes on handles or buttons before you touch them

Use disinfecting wipes on handles and buttons before you touch them (if available). After fueling, use a hand sanitizer with at least 60% alcohol. Wash your hands for at least 20 seconds when you get home or somewhere with soap and water.

Going to the doctor or getting medicine

Talk to your doctor online, by phone, or e-mail

Use telemedicine, if available, or communicate with your doctor or nurse by phone or e-mail. Talk to your doctor about rescheduling procedures that are not urgently needed.

Order online or use curbside pickup

- If you think you have COVID-19, let the office know and follow guidance.
- Cover your mouth and nose with a cloth face covering when you have to go out in public.
- Do not touch your eyes, nose, or mouth.
- Use disinfecting wipes on frequently touched surfaces such as handles, knobs, touchpads (if available).
- Stay at least 6 feet away from others while inside and in lines.
- When paying, use touchless payment methods if possible. If you cannot use touchless payment, sanitize your hands after paying with card, cash, or check. Wash your hands with soap and water for at least 20 seconds when you get home.

Limit in-person visits to the pharmacy

- Plan to order and pick up all your prescriptions at the same time.
- If possible, call prescription orders in ahead of time. Use drive-thru windows, curbside services (wait in your car until the prescription is ready), mail-order, or other delivery services. Do the same for pet medicine.
- Check with your doctor and pharmacist to see if you can get a larger supply of your medicines so you do not have to visit the pharmacy as often.
